.....from georges' desk.....

Welcome to our International Student Ministry edition! In this newsletter, we'll take a look at our ISM ministry history and vision, and hear exclusive reports from our ISM field staff across the US.

We are excited to report that compared to last year, nearly twice as many Saudi students have heard the Gospel. Also we've seen TWICE as many decisions for Christ this semester! Praise God! We thank you for your faithful partnership which makes this possible.

Reaching this generation for Christ is critical, and we thank you for helping change lives one student at a time.

ISM - our history

reaching the nations at our doorstep

One third of all international students in the world study in the U.S, approximately **800,000** students. **80%** of these students never set foot in an American home. Even more will never hear a clear presentation of the Gospel. These students are **future world leaders** and reaching them while they are students here has a global impact.

For **24 years** Horizons has been reaching and discipling international students and is now on **18 college campuses** in **eight states** across the country.

Horizons impacts international students through: Bible studies, discussion groups, friendship partner programs through local churches, teaching English as a second language, cultural and recreational events, and by discipling and mentoring new Christians.

we are horizons | ISM edition

Meet the newest members of Horizons ISM staff. Michelle joins us as our National Director of International Student Ministry and Donivan as our Internship Director. Recently relocated from Evansville, Indiana with their four children: Mariah, 17, Noah, 13, Zoe, 10, and Simon, 8, the Williams have been actively involved in international student and college ministries for many years. They look forward to using their new roles to reach and impact even more international students for Christ. Want to know more? Email them at michelle@horizonsinternational.org & don@horizonsinternational.org.
